

ZIRMED[®] CODING TOOLS

Part of ZirMed's comprehensive revenue cycle management solution for health-care

Accurate coding is critical to getting paid quickly and fully—and it never ceases to be challenging. Whether it's finding the right code for a new-to-market drug or device, ensuring your modifier is correct when coding a complex procedure, or narrowing your search for the right ICD-10 code, the shifting regulatory and industry environments make coding a potential bottleneck in organizations of all sizes.

With ZirMed's Coding Tools, you can equip your team with the solutions they need to streamline their coding workflow. Users can easily search for and find the codes they need, and your organization will benefit from an extra layer of assurance that coding is complete and correct—before claims are submitted.

ZirMed's Coding Tools streamline your ICD-10 transition with intuitive, helpful resources at every step of the coding process.

ZirMed's Coding Tools options

Basic Coding Tools

- Basic CPT/HCPCS coding
- Basic ICD (ICD-9 and ICD-10) coding

Enhanced Coding Tools

- CPT/HCPS coding
- ICD-9 Procedure and Diagnosis coding
- Morphology coding
- Modifiers
- ASC coding
- Device/Product Info—the key to matching manufacturers' suggested codes
- Revenue coding
- Pharmaceutical coding—search by National Drug Code (NDC) or based on CMS' NDC-to-HCPCS Crosswalk
- CPT/CCI validations
- CPT/ICD9 validations
- CPT/Rev validations
- Pro Part B validations
- Facility Part B validations

Benefits of ZirMed's Coding Tools

Simply sign in to the ZirMed portal, and you can access the powerful coding-assistance and search features of our Coding Tools right alongside the Claims Management solutions you use every day.

ZirMed's Coding Tools help you code correctly the first time. You can search within specific subsets so that only the codes relevant to your practice appear in search results. Our Coding Tools are also regularly updated to align with the most current standards, helping ensure your organization's compliance with LCD and NCD regulations.

Easily search for and find the codes you need—all within the ZirMed portal.

The tools you need for ICD-10

In the months following go-live, even the most skilled and knowledgeable coders may find it challenging to code fluidly in the "new language" of ICD-10. With a fivefold increase in the number of codes and a far greater level of specificity for diagnoses and procedures, there's not only more risk of inaccurate coding—there's the very real possibility of a substantial drop in productivity.

That's where ZirMed's Coding Tools come in—they streamline your ICD-10 transition by providing intuitive, helpful resources at each step of the coding process. The straightforward user inter-

face makes it easy to check for invalid code combinations, search for and confirm the appropriate ICD-10 codes, and find the correct modifiers. Rather than flipping through lengthy codebooks or toggling between different programs, you can quickly find the information you need—all within the ZirMed portal.

The screenshot shows the ZirMed portal interface. At the top, there is a navigation bar with the ZirMed logo and a "Support & Training Center" link. Below the navigation bar, there are several tabs: Account, Prof Claims, Inst Claims, Remits, Eligibility, Print Services, Z Pay, Estimation, Patient Access, Analytics, Clinical Link, and Z Pay. A "Log Off" link is also present. Below the navigation bar, there is a breadcrumb trail: Claims > Batches > Name Matching > Providers > Reports > Payers > Coding Tools > Settings > PQRS > Claim Status Inquiries > Test Area > Attachments (6). The main content area is titled "Basic ICD" and contains a search form. The search form has a "Search for" field with "Pneumonia" entered, a "Service Date" field with "10/01/2014" entered, and radio buttons for "ICD-9" and "ICD-10" (selected). There are also checkboxes for "Include Incomplete" and "Only search my codes", and a "List My Codes" link. Below the search form, there is a table of results. The table has columns for "Code", "Description", and "My Codes". The results are displayed in a grid format, showing 10 results per page. The first result is A01.03 Typhoid pneumonia. The second result is A02.22 Salmonella pneumonia. The third result is A37.00 Whooping cough due to Bordetella pertussis without pneumonia. The fourth result is A37.01 Whooping cough due to Bordetella pertussis with pneumonia. The fifth result is A37.10 Whooping cough due to Bordetella parapertussis without pneumonia. The sixth result is A37.11 Whooping cough due to Bordetella parapertussis with pneumonia. The seventh result is A37.80 Whooping cough due to other Bordetella species without pneumonia. The eighth result is A37.81 Whooping cough due to other Bordetella species with pneumonia. The ninth result is A37.90 Whooping cough, unspecified species without pneumonia. The tenth result is A37.91 Whooping cough, unspecified species with pneumonia. At the bottom of the table, there is a summary: "Displaying 1 - 10 of 74 Codes" and "10 | 25 | 50 Page 1 of 8 > Go".

About ZirMed®

Founded in 1999, ZirMed is the nation's premier health information connectivity and management solutions company, modernizing critical connections between providers, patients, and payers to improve the business and process of healthcare. ZirMed combines innovative software development with the industry's most advanced transactional network and business analytics platform to give organizations a clearer view of their financial and operational performance. ZirMed's industry-leading technology and client support have been recognized with awards from KLAS®, Healthcare Informatics, Best of SaaS Showplace (BoSS), and Black Book Rankings. Our nationwide network facilitates, manages, and analyzes billions of healthcare transactions, driving bottom-line performance with clinical communications, comprehensive analytics, eligibility, claims management, coding compliance, reimbursement management, and patient payment services—including credit card processing, online payments, statements, estimation, and payment plan management.
